## **The Phoenix Company of Chicago Appoints ECM Distributors as an Authorized – Global Franchised Distributor**

Wood Dale, IL– June 2013 – The Phoenix Company of Chicago is pleased to announce that ECM has been appointed to distribute its product line of RF/Microwave blindmate contacts and connectors.

With 25 years of experience, ECM’s proven sourcing and stocking programs and impressive knowledge of RF/Microwave components complements the distribution model Phoenix was seeking to ensure product availability from a trusted source.

“Partnering with ECM allows us to serve our customers more efficiently by providing high quality, technology-driven components directly from ECM’s StockRoom”, said Michael Machura, Phoenix’s CEO. “We are very excited to work with ECM and this partnership will match the strength of our expanding blindmate contacts and connectors with ECM’s excellent customer service and product support.”

“Our long term strategy has always been to provide superior customer service to our customers and to continuously improve our customers’ experience by working side by side with best-in-class manufacturers in the RF and Microwave industry. The relationship between ECM and Phoenix truly allows us to combine our companies’ strengths, which will greatly benefit our existing customers and new ones in the future. We could not be more pleased and excited about working with Phoenix; they are a great organization with an amazing team of passionate people who are committed to designing and producing quality products”, said James Doyle - President and CEO of ECM Distributors.

### **About The Phoenix Company of Chicago**

With a reputation for designing and manufacturing world-class RF/Microwave blindmate contacts and cable assemblies, The Phoenix Company of Chicago measures its success against the value it brings its customers and the long-term partnerships that are formed. As the originator

of the constant impedance PkZ® series of contacts, Phoenix provides its customers with innovative blindmate solutions that optimize performance, service, and costs in the Medical, Military, Public Safety, Test and Measurement, and Telecommunications markets.

Recent additions to its product line include: Phoenix's **High Mating Cycle RF Contacts**, rated to 60,000 mating cycles, an array of **High Density RF Contacts and Housings**, and the expansion of the **PkZ®** series of blindmate contacts of varying sizes, frequencies, and non-magnetic materials.
