SMP Connectors

Wood Dale, IL– December 2008 – The Phoenix Company of Chicago introduces a new series of SMP Connectors to its product line.

Phoenix's SMP series subminiature connectors offer superior electrical performance from DC to 26.5 GHz. Blindmate feature allows for board-to-board, cable mount, and PCB mount. In-series adapters provide solutions for rack and panel applications. All products manufactured to Mil-Std-348.

Features to note:

- Subminiature size for high-density applications.
- Snap feature for quick mating and reduced assembly time.
- Axial alignment reduces stress from multiple blindmate connections.
- Gang mating possible. Compensates for up to .020" radial and axial misalignment (when used with an adapter).
- Center-to-Center spacing of .170".

Phoenix's SMP Connectors are ideal for: **blind mate telecommunications, active antennas, phased arrays, airborne platforms, ship and ground radar, satellite communications, and military applications.**

*Meet RoHS compliancy standards.

For more information, please contact The Phoenix Company of Chicago at (800) 323-9562.
